CHAPTER 26A—NATIONAL SPACE GRANT COLLEGE AND FELLOWSHIP PROGRAM

- Sec.
2486. Congressional statement of findings.
2486a. Congressional statement of purposes.
2486b. Definitions.
2486c. National space grant college and fellowship program.
 (a) Establishment; long-range guidelines and priorities; program evaluation.
 (b) Functions.
 (c) Acceptance of gifts and donations; funds from other Federal agencies; issuance of rules and regulations.
2486d. Grants or contracts.
 (a) Authority of Administrator; amount.
 (b) Special grants; amount; prerequisites.
 (c) Application.
 (d) Terms and conditions; limitations; leasing; recordkeeping; audits.
2486e. Identification of specific national needs and problems relating to space; grants or contracts with respect to such needs or problems, amount, application, terms and conditions.
2486f. Space grant college and space grant regional consortium.
 (a) Designation; qualifications.
 (b) Other necessary qualifications and guidelines on activities and responsibilities; regulations.
 (c) Suspension or termination of designation; hearing.
2486g. Space grant fellowship program.
 (a) Award of fellowships; guidelines; wide geographic and institutional diversity.
 (b) Limitation on amount to provide grants.
 (c) Authority to sponsor other research fellowship programs unaffected.
2486h. Space grant review panel.
 (a) Establishment.
 (b) Duties.
 (c) Personnel and administrative services.
 (d) Appointment of voting members; Chairman and Vice Chairman; reimbursement of non-Federal employee members; meetings; powers.
2486i. Availability of other Federal personnel and data; cooperation with Administration.
2486j. Repealed.
2486k. Designation or award to be on competitive basis.
2486l. Authorization of appropriations.

§ 2486. Congressional statement of findings

The Congress finds that—

(1) the vitality of the Nation and the quality of life of the citizens of the Nation depend increasingly on the understanding, assessment, development, and utilization of space resources;

(2) research and development of space science, space technology, and space commercialization will contribute to the quality of life, national security, and the enhancement of commerce;

(3) the understanding and development of the space frontiers require a broad commitment and an intense involvement on the part of the Federal Government in partnership with State and local governments, private industry, universities, organizations, and individuals concerned with the exploration and utilization of space;

(4) the National Aeronautics and Space Administration, through the national space grant college and fellowship program, offers the most suitable means for such commitment and involvement through the promotion of activities that will result in greater understanding, assessment, development, and utilization; and

(5) Federal support of the establishment, development, and operation of programs and projects by space grant colleges, space grant regional consortia, institutions of higher education, institutes, laboratories, and other appropriate public and private entities is the most cost-effective way to promote such activities.

(Pub. L. 100-147, title II, §202, Oct. 30, 1987, 101 Stat. 869.)

SHORT TITLE

Section 201 of title II of Pub. L. 100-147 provided that: "This title [enacting this chapter] may be cited as the 'National Space Grant College and Fellowship Act'."

§ 2486a. Congressional statement of purposes

The purposes of this chapter are to—

(1) increase the understanding, assessment, development, and utilization of space resources by promoting a strong educational base, responsive research and training activities, and broad and prompt dissemination of knowledge and techniques;

(2) utilize the abilities and talents of the universities of the Nation to support and contribute to the exploration and development of the resources and opportunities afforded by the space environment;

(3) encourage and support the existence of interdisciplinary and multidisciplinary programs of space research within the university community of the Nation, to engage in integrated activities of training, research and public service, to have cooperative programs with industry, and to be coordinated with the overall program of the National Aeronautics and Space Administration;

(4) encourage and support the existence of consortia, made up of university and industry members, to advance the exploration and development of space resources in cases in which national objectives can be better fulfilled than through the programs of single universities;

(5) encourage and support Federal funding for graduate fellowships in fields related to space; and

(6) support activities in colleges and universities generally for the purpose of creating and operating a network of institutional programs that will enhance achievements resulting from efforts under this chapter.
